

Review of Nano SQUIDs Temporarily Online

February 1, 2016 (HP106). Until March 18, 2016 interested readers can download free-of-charge the most recently published *Physics Reports* (Elsevier) comprehensive review of nano SQUIDs by Carmine Granata and Antonio Vettoliere. The title is “Nano Superconducting Quantum Interference device: A powerful tool for nanoscale investigations”, *Phys. Rept.* 614 1-69 (2016). The temporary link, courtesy of Elsevier, is:
