

**Re: 4<sup>th</sup> International Conference on Superconductivity and Magnetism to be held in Antalya, Turkey between 27 April and 2 May 2014 at Kervansaray Lara Convention Center.**

Dear Distinguished Colleague,

On behalf of ICSM2014 Organizing Committee, we are proud to provide you with updated information (Plenary, half plenary, invited speakers, approved sessions, accommodation, proceedings etc.) regarding the conference in Antalya, with outstanding features and accepting high level of interest from the well-known eminent scientists and technologists from all around the globe.

ICSM2014 has become an outstanding platform with many distinguished features including high level of fruitful networking opportunities with eminent scientists and professionals in the industrial exhibitors, and this is to inform you that just about a week left before the early-bird deadline of 17th February, 2014. You may explore the tentative scientific program with the core information at the web-site: <http://icsm2014.org/scientific-program/>

#### **Registration:**

This is a truly not to be miss-out event of the year in related fields of superconductivity, magnetism, cryogenic, materials and applications. Early registration deadline exists, please ensure that you benefit from the rates, and take the advantage of savings around 100 Euros and more depending on your registration status. Please visit the registration page for details: <http://icsm2014.org/conference/>

#### **Educational Courses and Spring School:**

Educational Courses and Spring School will also be held prior to ICSM2014 between 21 April and 26 April 2014. Registrations for the school will also be handled by ICSM registration desk, the program is already available on the web, you may please explore at <http://ssec.icsm2014.org/>. We urge young talents to apply also for the SSEC2014 for the available with limited seats. The participation is limited to 35 graduate students, young talents and post-docs. Special rates will be applied for the combined participation both SSEC and ICSM.

#### **Accommodation:**

We have some limited number of rooms block-booked at the venue hotel. Act accordingly to book your accommodation at the conference venue hotel with ultra all inclusive concept unique to the ICSM participants. Please note that Antalya is a busy destination from the beginning of April, 2014, high prices may be inevitable for late comers. Please visit the accommodation page for details: <http://icsm2014.org/general-information/accommodation/>

## Outstanding Venue:

Antalya is well-known touristic spot receiving more than 12 million tourists annually, and has been the center of many civilizations from the ancient times. We are confident that the location and the conference venue will provide an unforgettable unique experience in a truly world class event. There is a rich social program in addition to a strong scientific program. Please visit the web site for the details of social program: <http://icsm2014.org/social-program/>

We look forward to welcoming you at an outstanding conference in Antalya, the world-famous city as the center of attraction in the last periods.

Yours faithfully,

Dr. Ali Bozbey  
General Secretary of ICSM2014  
Executive Board Member of CESUR
