**Options for Post Deadline Abstract submissions for the ICEC25 – ICMC 2014 conference.**

The abstracts submission for ICEC-ICMC is a great success and today we counted more than 408 abstracts.

The deadline for normal submission has passed, however, the interest for participating is great and we offer options for submitting post-deadline abstracts. The Program Committee meeting is set for March 28, thus we have to close the files for the meeting on the Wednesday before.

**Therefore, we can accept post-deadline abstracts up to Wednesday March 26, 24:00 Amsterdam time.**

**After this date we still may accept abstracts but for poster presentations only, and at the discretion of the Program Committee Chairman.**

So you still can sign up and join us at the conference. The abstract submission site is accessible directly through the conference timetable site in indico:

<https://indico.cern.ch/event/244641/>

**Please also note that the Early Registration deadline is April 1, 2014.**

**On the Monday July 7, three courses are given for which you can register now as well, see <http://icec25-icmc2014.org/courses.html>**

Due to limited capacity, the technical visits on Friday July 11, is offered on a first come first serve basis.

**We encourage you to register for the technical visits as early as possible to ensure a place, see: <http://icec25-icmc2014.org/technical-program/technical-visits-on-friday.html>**

Sincerely,

Herman ten Kate  
Marcel ter Brake (Chairmen of ICEC25-ICMC2014)  
Johan Bremer (Chairman Program Committee)
