

## **Editorial Foreword**

September 11, 2019 (E47-P1). The full Issue No. 47 of SNF intends to make talks and publications available from both the ISEC 2019, which took place in Riverside, California, USA, and the EUCAS 2019, which was located in Glasgow, Scotland, UK.

In this “Preview 1” of Issue No. 47, we publish a number of presentations and extended abstracts from ISEC 2019. As further contributions become available, they will be included in subsequent reviews and in the full Issue No. 47.

We hope you enjoy the talks and papers included in this preview.
